

FT-1380 Crimper Maintenance

Restore your crimper back to full working order

The FT-1380 can last for decades with the proper maintenance. HSC will inspect and repair any problems with your crimper for one low price.* Crimper will be tested and calibrated. Price includes loaner crimper during the time your crimper is undergoing maintenance.

Contact HSC Customer Service at sales@hydraulic-supply.com or (800) 507-9651 for details and quotes.

*Note: Fixed pricing for crimper maintenance assumes no major problems found. Items such as broken tie rods, worn or damaged crimp ring, or damaged pusher may result in a higher price. Freight charges are customer's responsibility.
