

x20 Stock Change Program

Quick ship program for open loop piston pumps

The Build Shop stocks base pumps and individual components that allow us to reconfigure pumps and ship in a couple days from West Palm Beach. All pumps are available in both Clockwise and Counter-clockwise rotations.

220 Pumps

Displacements	Flanges	Shafts	Controls	Ports	Special Features
28 cm ³ (1.71 in ³)	2-Bolt B	7/8" Keyed	Load Sense	O-Ring Side	Max Volume Stop
		1" Keyed	Pressure Comp Only	O-Ring Rear	Bleed Down Orifice
		13T Splined	LS w/Remote Press Comp	C-61 Side	Destroke Valve
		15T Splined		C-61 Rear	

420 Pumps

Displacements	Flanges	Shafts	Controls	Ports	Special Features
41 cm ³ (2.50 in ³)	2-Bolt B	1" Keyed	Load Sense	O-Ring Side	Max Volume Stop
49 cm ³ (3.00 in ³)	2/4-Bolt C	1" Tapered	Pressure Comp Only	O-Ring Rear	Bleed Down Orifice
62 cm ³ (3.80 in ³)		13T Splined	LS w/Remote Press Comp	C-61 Side	Destroke Valve
80 cm ³ (4.88 in ³)		14T Splined		C-61 Rear	Thru-Drive A Flange
		15T Splined			Thru-Drive B Flange
					Viton Shaft Seal

620 Pumps

Displacements	Flanges	Shafts	Controls	Ports	Special Features
74 cm ³ (4.51 in ³)	4-Bolt C	1.25" Keyed	Load Sense	C-61 Side	Max Volume Stop
98 cm ³ (5.98 in ³)		14T Splined	Pressure Comp Only		Bleed Down Orifice
		17T Splined	LS w/Remote Press Comp		Destroke Valve
					Thru-Drive A Flange
					Thru-Drive B Flange
					Thru-Drive C Flange
					Viton Shaft Seal

Contact HSC Technical Support at tech@hydraulic-supply.com or (561) 570-3190 for details and quotes.

Note: Not all combinations of features are available (i.e. rear ports and thru drives are incompatible).
